SOFT SKILLS

- Team Work
- Collaboration
- Creativity
- Critical Thinking
- Communication

HARD SKILLS

- Programming in different languages
- Electronics
- Mechanical Design
- Automation Applications
- Web Design

LANGUAGES

- English (Intermediate)
- French (Basic)
- Spanish (Native)

PROFESSIONAL PROFILE

I am a mechatronics engineering student in the final semester at Nueva Granada Military University. I am an engineer passionate about the world of programming and automation. I stand out as a responsible and communicative person who enjoys tackling new challenges.

WORK EXPERIENCE

VTE - Milirocket

February 2023 - To date

During my academic journey, my team and I have developed an electric traction vehicle, integrating all the components of Mechanical, Electronics, Control, and IT, resulting in a university project that will be entered into a national competition to represent the university and showcase us as engineers dedicated to the design and implementation of engineering machines.

The website for this project is as follows: vteumilitar.web.app/

CERTIFICATIONS

Python for Everybody - Specialization (5 courses)

Institution: Coursera

Date of issuance: July 2023

Credential ID: RgN2MEJL7QS3

Web Design for Everybody: Basics of Web Development & Coding

Institution: Coursera

Date of issuance: September 2023

Credential ID: VFQg2MPWU4AM

SolidWorks Associate

Institution: SolidWorks

Date of issuance: 14 August, 2023

Credential ID: C-W8GU6ZJ2P7

EDUCATION

Mechatronics Engineering

Nueva Granada Military University

2019 - To date (currently in the tenth semester)
